JUST TAPERED OFF.

The Legislature Died Easily and Quietly.

IMPORTANT ALAMEDA LEGISLATION.

The University Will Get the Morrill Money—The Police Pension Bill—Personals.

From Our Special Correspondent.

SACRAMENTO, March 26, 1891.

The game is played out. The agony is over. The Legislature has adjourned. The people are glad. The members are glad. The attaches are glad. Everybody is happy except the Sacramentan, who languishes through two years of existence in order to live through two months of session. With all the talk and wasting of time there has been a great deal of work done—far more than is done by an average Legislature. The Senate leaves less than 275 bills on its file, and most of these are bills of which duplicates have passed or general laws embracing their provisions have gone through. This beats the record for many years. The Assembly is not quite up to this mark, because of its useless talkers; but it has done fairly well. All the laws which the country can stand have been passed.

Last night there was the usual horse-play preceding the breaking up of a hard session. The Assembly has been indulging in a great deal of this sort of thing for several days. In fact, the Assembly made a fool of itself on the slightest provocation. Taken as a whole, it was an aggregation of lightweights. The Senate has all all along been dignified and dispassionate, and though the percentage of brainy men was rather small, take it for all in all, it was a comparatively respectable body.

The Alameda delegation in both Houses has done great work. All the bills which the people of the county have demanded have been passed. The few bills introduced by Alameda men which did not get through were of small importance. Yesterday the Assembly passed Dargie's bills extending the police pension system to Oakland and other cities, and permitting the State University to get money from the National Treasury by taking advantage of the Morrill act. Senator Denison deserves much praise for his active work on behalf of the Police Pension bill. All the Alameda delegation in the Assembly except Fowler were in their seats to vote for it, and McCall rushed around explaining it and rustling up votes. The University bill passed without trouble, thanks to the concerted action of the Alameda delegation and old University men.

The Bruner trouble had another inning yesterday. This time it was in the Sacramento Police Court, where a jury found Assemblyman Lowe guilty of an assault upon Assemblyman Bledsoe. Lowe was fined $25, but as his attorney gave notice of a motion for a new trial, he may appeal.

The waste-paper basket incident also bobbed up again. A joint resolution was passed by the Senate requesting the Attorney-General to proceed with the investigation after adjournment and asking the Governor to turn over the evidence to that official. McGowan of Humboldt wanted the resolution put in somewhat stronger words, but he was voted down. Preston desired the case presented to the Sacramento Grand Jury, but his resolution did not carry. The lower House let the resolution go by the board.

Cary Howard was here yesterday arranging for his re-appointment as a notary public. He will have no trouble, as the Alameda delegation indorsed him.

The tax levy has been fixed finally at .4992 cents for the next fiscal year and .4996 cents for the year succeeding. This raise was made by the Senate Finance Committee, but it is still within the 50-cent limit of the Republican pledge. The figures given include the one-cent State University tax.

HAMILTON.

AMUSEMENTS.

When Leander Richardson made his play, *The Millionaire*, for Daniel Sully he did not picture the Irishman as a bowling clown or a boor. He made a representation of a man not strange in America, though he idealized him, but with artistic touches. He presented such a man as is often seen, a shrewd, successful contractor, who has made his way in the world, and, in spite of absence of early education, has taught himself in practical knowledge so that he is able to cope with the financiers of Wall street and beat them. The play of course was made to fit Sully, but it is much better made than most "one man plays," in that the characters other than the principal have something to do besides hold a curtain as a background for posings of the star. Sully plays the fine part of "James O'Brie," a vigorous, able and prosperous man of business in magnificent style, showing that he is even better fitted for strong comedy than for farce such as *The Corner Grocery* in which he made fame and fortune. Mr. Sully has gathered around him a dramatic company whose members are singularly competent. C. J. Williams' performance of "Baron von Steinbarger" would be exceedingly notable were it not that the other characters are equally well performed, and hence his seems but a proper part of an excellent ensemble. Philip McFarland has two parts, one a Swedish butler and the other an Irish section hand, and he shows himself an unusually clever dialect comedian. Miss Rose Watson and Miss Daisy Lovering are beautiful women and worthy members of a very strong company. The child actress fills her part prettily. Messrs. Charles, Eldridge, Allen and Ritchter complete the cast. Author, star and company seem to have united to make a fine performance of high-class melodrama. The last performance of *The Millionaire* will be given this evening.

CATTLEMEN DISAPPOINTED.

They Will Not Be Allowed to Graze Stock on the Osage Reservation.

ST. LOUIS, March 26.—A dispatch from the northern border of Texas says that excitement among the cattlemen has been caused by the announcement that Government Agent Mills has sent the marshals of the Osage Nation in the Indian Territory to notify stockmen that they will not allow cattle to graze in that reservation. The cattle men have leased large tracts of grazing land in the Osage Nation at heavy expense, and for the last two weeks shipped there at least 10,000 head of cattle.

HANGED.

A Pennsylvania Woman-Murderer Turned Off.

MAUCH CHUNK, Pa., March 26.—The jail was crowded this morning with people to witness the hanging of Oliver William Stangely. The crime for which he suffered death was the murder at Weatherly in October, of Mrs. Walbert, whom he killed during a fit of anger.

WILKESBARRE, Pa., March 26.—George Washington Moss, who brutally murdered his wife last October, was hanged today. The couple had a great deal of trouble during their married life, and the reason for the crime is thought to have been the humiliation of Moss for being sent to jail for drunkenness and abusing his wife.

CONFUSING REPORTS.

Balmaceda and the Insurgents Both Have Their Innings.

Conflicting Reports Which Come From Chile Concerning the Struggle Going on There.

NEW YORK, March 26.—Some New York houses in the Chile trade have received news to the effect that the Chilean Insurgents are on top. Others get only news that President Balmaceda and the Government are in the ascendant. Yesterday both the Insurgents and Balmaceda had a hearing. In the first place and for the Insurgents it was announced that the Governors of Antofugasta and Taltal had gone over to the Insurgents. This was averred as especially important, as these two Governors were in charge of the most important nitrate towns in the republic and have direct supervision over the railroads leading to the Chilean silver mines.

BALMACEDA'S SIDE.

Balmaceda's adherents took a hopeful view of things when they received copies of the South American journals. These papers related how a Lieutenant on board an Insurgent gunboat was made a prisoner of the captain, who put him ahsore. The members of the crew were for Balmaceda. Then the Lieutenant, so the paper says, captured two other gunboats from the Insurgents and put their captains ashore, after tying them hand and foot.

A BIG FORGERY.

A Railroad Agent Forges a Bill of Lading for Cattle.

Advances on Eleven Cars of Stock Paid by a Commission Firm—The Agent Escapes.

ST. LOUIS, March 26.—A Windsor dispatch says: A clever forgery has just been revealed here which will cost the Woods Brothers Commission Company of Chicago heavily, but as yet the amount is unknown. On the 19th inst. Thomas P. Sibley presented a bill of lading for a lot of live stock, signed by the agent of the Missouri, Kansas & Texas road at Windsor, on which Woods Brothers ordered the First National Bank of Sedalia to pay the amount advanced on eleven cars of stock. The bank paid the draft and immediately drew on Woods & Co., the draft being promptly met. Yesterday Woods Brothers telegraphed the Missouri, Kansas & Texas agent that they held his bill of lading for eleven cars of stock, and asked where the shipment was. The agent knew nothing of it, and wired that the bill of lading was a forgery. Sibley is at large. The railroad people are investigating.

STORM SCOURGED.

Kansas Suffering From a Hard Blizzard.

THE WORST STORM KNOWN IN YEARS.

Trains Blocked Between Stations and Passengers Short of Food—Cattle Dying.

KANSAS CITY, March 26.—Advices received this morning from many points throughout Kansas indicate the most severe storm ever known to have raged over the greater portion of the State yesterday. Railroad traffic is at a standstill. Every available snowplow is called into requisition, but they made very little headway. Several trains were caught between stations, among them being the Missouri Pacific pay train. The company manages to keep those on board supplied with food, but if the storm should last much longer they will be in a serious predicament. Reports from all directions indicate great suffering by live stock from lack of food and water. The Neosho river, which began to rise on Tuesday out of its banks in many places, is higher than it has been in many years. On the central branch of the Missouri Pacific a great many poor people are reported suffering for lack of fuel and food.

It is proposed to form a new company, of which the naval construction and Armament Co. of Barrow-in-Furness and the Allan Company will be the chief promoters. Negotiations between the two companies are in progress and it is expected will be successful. The intention is to have the new company take over the existing Allan-line steamers and run them principally as freight steamers. The new line will be under the control of the Allans and will be neutral as between the Grand Trunk and the Canada Pacific Railways. The new company is working to secure a Government subsidy. Three or four fast steamers will be built similar to those running to New York, and it is expected that the traffic to and from Chicago and the Northwest will thus be diverted towards Montreal. Montreal will be the summer port, and either Halifax or St. John the winter port.

Kincaid on Trial for the Murder of an Ex-Congressman.

Taulbee Pulled Kincaid's Ear—What the Defendant Said to a Doorkeeper of the House.

WASHINGTON, March 26.—A number of witnesses in the Kincaid trial were examined this morning. William McCormick, one of the doorkeepers of the House, said he heard Taulbee call Kincaid a liar before the shooting occurred. About an hour and a quarter afterwards Kincaid returned and asked the witness' advice as to what he should do in regard to the trouble. Witness replied he had no advice to give. Said Kincaid: "I am not able to cope with such a man as Taulbee. I have been sick and weak; more than that, I was not armed, I did not even have my cane." Then Kincaid left and walked rapidly to the head of the stairway. In a short time, about half a minute, witness heard the report of a pistol. On cross-examination he denied having heard Taulbee call Kincaid a "dirty liar," a "monkey," or a "damned little coward." Nor did he hear Taulbee tell Kincaid to go and arm himself.

Robert Woodbridge another doorkeeper, substantially corroborated McCormick's testimony except that he testified to having seen Taulbee pull Kincaid's ear.

MRS. KING'S FORTUNE

The Compromise in the Estate of Thomas Varney.

THE LEGATEES GIVE THEIR CONSENT.

The Illegitimate Daughter Receives $92,025 in Cash, Less the Fees Paid to Her Attorneys.

Mrs. Grace Varney-English-King will not contest the will of her father, the late Thomas Varney, deceased. The compromise between her and the executors of the estate, as related exclusively in THE TRIBUNE of last evening, has been allowed by Judge Ellsworth. By this compromise Mrs. King is to receive in cash, at once, the sum of $92,025.

The attorneys representing the executors and A. A. Moore, representing Mrs. King, appeared in court yesterday afternoon and explained matters to his Honor. Decisions were read in order to show that the executors have authority to make the compromise, and that the propositions made are perfectly legal in every respect. However, the executors would not admit all the statements made by Mrs. King. They were forced to admit that Mrs. King had always been treated as the child of Thomas Varney and they say that her attorneys have assured them that it would be incontrovertably proved that the deceased is the father of the contestant, and it would be impossible for them to controvert the evidence of paternity which might be produced. They deny, however, the charges made by the contestant of undue influence, but assert that they fear that a jury might be moved by sympathy for the only child of the decedent, and may set aside the will without sufficient proof. If, therefore, Mrs. King should secure a judgment the entire estate would go to her, and in any event the contest would consume a considerable portion of the estate. As the estate stands at present there will be more than $400,000 to go to the residuary legatee after all claims and expenses are paid. For the reasons given the executors represented to the court that it would be wise to compromise the contest, and would be a great advantage to the estate.

All the heirs of the estate consented to the compromise except two, J. W. Varney of San Francisco and Frederick Varney of Chicago. The former has a future contingent interest of one forty-second part of the residue of the estate, and he allowed his default to be entered to the contest.

Under the terms of the will of the deceased, Mrs. King was bequeathed the use of the house and lot on Seventh avenue in East Oakland for life. The executors were charged to keep the house in repair at the expense of the estate. Besides this she was given the interest on $60,000 for life, but could never have a dollar of the principal.

It was said that when Mr. Varney made his will he stated that he desired to give his daughter an income of $300 a month and no more, and that was the reason he made the trust of $60,000. So it will be seen that under the will the lady would have had about $300 a month for life, besides a home.

But the point was made by the executors that the bequest made by Varney to his daughter was absolutely void and contrary to law. The question involved many fine law points, and even the attorneys for the contestant deemed that there was a chance at law for their client to be defeated. It was maintained by the executors that, under the law, Varney could not tie up his estate and money in the manner he directed. When Miss Varney brought the suit to recover $150,000 from the estate, in lieu of her bequest, the subject of that provision of the will being void was discussed. Then it was that the lady commenced the proceeding to contest the will and declared that she was the daughter of a Miss Moore, and was born out of wedlock, and is the illegitimate child of Thomas Varney, deceased.

In order to prevent all the scandal a contest would create, both sides desired a compromise. Mrs. King takes $92,025 in cash and agrees to relinquish all claims against the estate, including the provision made for her in the will. The $60,000 provision and the house and lot set apart for her use will become a part of the residue of the estate. The contest to the will will be dismissed, and the suit to recover $150,000 will also be dismissed. Under the circumstances the compromise is deemed a fair one all around.

Attorneys Moore and Foote will receive a handsome fee for their services in behalf of Mrs. King.

THE FUNERAL OF DR. FISH.

Services Conducted at the Family Residence in East Oakland.

Representatives From the Many Fraternal Organizations of Which the Deceased Was a Member.

At the hour set for the obsequies this afternoon of the late Dr. M. W. Fish, President of the Board of Education, the sky was overcast with heavy clouds, which ever and anon shed their moisture on the earth below. Despite the rainy weather a large number of people assembled to participate in the sad rites, for the deceased was honored, respected and beloved.

Two o'clock was the hour set for the religious services, and at that time there had assembled at the residence, 461 East Fourteenth street, a large concourse of friends and associates, so the parlors of the house were thronged. The funeral service was conducted by the Rev. Hamilton Lee of Haywards, an Episcopalian clergyman formerly resident in this city, of whom the deceased was a personal friend.

The pall-bearers were Dr. Beverly Cole of San Francisco, representing the Medical Department of the University of California; Professor Le Conte, also of the University; Dr. Pinkerton, representing the Alameda County Medical Society; Dr. Fine of the Board of Education, L. G. Cole of this city and Frank J. French of San Francisco, personal friends. Also officiating were representatives of the Loyal Legion, the Grand Army of the Republic, the Grand Lodge Ancient Order of United Workmen, Odd Fellows, Knights of Pythias, Knights of Honor, American Legion, Equitable Aid Union, Rebekahs and Pythian Sisters.

From the house to the graveside at Mountain View Cemetery the cortege was in charge of the Grand Lodge of the Ancient Order of United Workmen and in the funeral train followed representatives of the fraternal organizations, the Board of Education in a body, medical students and Grand Army Veterans.

At the cemetery special services of the United Workmen were conducted in addition to those of the church.

The floral tributes were numerous and very handsome, each of the different organizations of which the deceased was a member sending a piece in memoriam.

The floral confections that were sent to the house were very beautiful. A magnificent star in tuberoses, carnations, violets and smilax bore across its face, in pansies, the initials of the American Legion of Honor. A masonic Maltese cross in beautiful white flowers and maiden-hair ferns bore the card of the Loyal Legion. The tribute of the Order of Workmen was a beautiful anchor mounted as on an easel and composed of tuberoses, violets, pansies and chrysanthemums, bore on the shaft in violets the word "Workmen." A magnificent column of fragrant buds and delicate greenery was from the Grand Army. There were many bouquets, wreaths and other floral pieces from friends of the deceased.

The funeral procession was nearly three blocks in length, and among those who followed the body of their departed friend to the grave beside the escorts from the various orders to which he belonged were: Dr. E. H. Pardee, J. W. McClymond, R. B. Cole, Dr. T. H. Pinkerton, H. T. Smith, C. H. Redington, J. P. Garlick, R. S. Leckie, S. H. Melvin, George W. Frick, O. C. Kirk, E. E. Clement, J. B. Carrington, Dr. A. Fine, C. W. Parker, C. B. Morgan, C. P. Hardenberg, Dr. Clapp, E. W. Blaisdell and a host of others.

Rain Again.

RUSSIA AND FRANCE.

The Treaty Concluded Against the Triple Alliance.

DECORATION FOR PRESIDENT CARNOT.

The Alliance of Russia and France Sealed With Imposing Ceremonies at Paris.

PARIS, March 26.—At the Palace Elysee today Baron De Mohrenheim, the Russian Ambassador here, formally presented President Carnot with the grand cordo of the Order of St. Andrew, the imperial decoration which the Czar, by decree, recently conferred upon the President of the French republic as a token, it is supposed of the conclusion of an offensive and defensive alliance entered into between Russia and France, as an offset to the Dreibund. The occasion was marked by much display and ceremony, during which the Russian Ambassador also presented—on behalf of the Czar—military honors to the Cabinet Ministers and to a number of prominent State officials.

A RIGHT-OF-WAY FIGHT.

Armed Resistance at a Street-Railroad Crossing.

Five Thousand People in Denver Stand By While Two Companies Have It Out on the Street.

DENVER, March 26.—An exciting scene was witnessed here yesterday at Fifteenth and Champa streets, when the Denver & Suburban railroad attempted to cross the Denver tramway tracks. The latter company appeared with an armed force of men, all their cars were crowded to the crossing, and it was necessary to place fifty policemen on the corner to prevent bloodshed. The men fought and tumbled around in the mud while fully 5000 people stood yelling and hooting at the tramway officers for endeavoring to obstruct the opposition company.

Managing Mothers.

It is often said that Romance is shocked at the idea of a mother finding a husband for her daughter, writes Amelia E. Barr in *The Ladies' Home Journal*, but Delicacy is equally shocked at a young girl hunting a husband entirely by herself. Mother and home throw a charm and a refinement around such efforts, and no good young man will refuse to acknowledge the wisdom and respectability of the English custom that "a wife is to be courted on her father's hearthstone." It is very easy to resent this supposed necessity of guarding girlish innocency, but it is a necessity in spite of all protestations to the contrary. If, indeed, the young are capable of self-direction, then mothers are a mistake, and all that Holy Writ and wise men have said is false and antiquated, and behind the youth of this generation.

But surely a mother who has made all the conditions of her daughter's life for eighteen years, may at least advise her child on the making of her marriage and her home. For, if she be a good mother, she will always consider that within due limits a marriageable daughter should be intrusted with her own destiny. She will know that it is one of the secrets of wise management to manage as little as possible, and never to interfere in things of small moment. Mothers, then, ought to supplement by their own experience the inexperience and emotions of their daughters, and to warn them against passions which bring evil unless guarded and directed to good ends.

A Hint for Home Decorators.

For the decoration of the panels of dados and doors and portions of wall surfaces, says *The Ladies' Home Journal*, apply a smooth, three-stranded cord, one-eighth of an inch in diameter, gilded or bronzed, representing any fanciful form, such as spiral figures, which are just now so fashionable with designers. Irish or Celtic interlacing work may be done in a wonderfully striking way with it. It lends itself well to the tracing of the outlines of bold designs. The cords are coated with glue, then with gold size, after which the gilding is laid on. They are fastened with short, brass-headed nails.

Good Friday Services.

At the First English Evangelical Lutheran Church at Young Men's Christian Association Hall, at 10:30 A. M. and at 8 P. M. tomorrow, the pastor, Rev. Philip Graif, will preach in the morning on "The Glory of the Crucifixion" and in the evening on "The Heroism and Joy of Suffering With Christ."

BY HABEAS CORPUS WRIT.

Kitty Reulein Will Fight Conviction for Vagrancy.

A new point in the issue of vagrancy cases came up in the Police Court this morning when Kitty Reulein, who was convicted yesterday, came up for sentence. Attorney Frank Brearty made a motion for arrest of judgment on the grounds that the defendant was arrested on the 21st but the complaint was not sworn to until the 23d. The law, he continued, does not regard vagrancy as a crime, but rather as fixing the status of the individual. It is therefore possible that the two days intervening between the arrest and the complaint the defendant may have become no longer a vagrant.

The motion was, however, denied, and then Mr. Brearty moved for a new trial which was also denied. The court then fined the defendant $40 and she surrendered to justice on advice of her counsel, who at once set about procuring a writ of habeas corpus to bring her before the Superior Court on the point of error in the complaint.

All the West Oakland churches will observe Easter Day on Sunday. Exceptionally fine music has been prepared.

George Hendrickson of Calistoga, who for the past month has been visiting relatives here, has returned to his home.

The residents of the vicinity of Fifth and Peralta streets complain that one of their neighbors is violating the Cow ordinance by keeping too much live stock upon her property.

West Oakland is the home of poets and authors. William T. Satterwhite, more commonly known as "Mr. Barnes of New York," is at present engaged in writing a book on the "Progress of the Civil Governments," in which he refers to Nationalism. He thinks the theory is perfect but that it is impracticable. He makes some startling statements such as "It is impossible to fabricate a pecuniary receptacle from the auricular constituent of the softer sex of the genus hog."

Yesterday afternoon as the train to the pier was pulling out of Center-street station, an elderly lady ran after it and attempted to board it, although several bystanders shouted at her, warning her not to. Unheeding the warning advice, she persisted in her attempt to board the train, and in consequence was thrown violently to the ground. As she fell her foot went directly under the train, but by good fortune she managed to take it from under the train just as the wheels of the next truck touched it.

An annual meeting of the Woman's Home Missionary Society of the Plymouth-avenue Church will be held on Thursday, April 2d, at 2:30 P. M. An interesting programme has been prepared, a feature of which is the "Question Drawer," to be conducted by Rev. Dr. Oakley.

A YOUNG LIFE ENDED.

The Business-Like Note Left by a Suicide This Morning.

The shrill blowing of a police whistle brought Detective Holland on a dead run this morning to a Washington-street hotel, where, on arrival he was informed that one of the lodgers had committed suicide. Rushing upstairs he found that the news was but too true, for, writhing on the floor was a young man in the throes of death. On the table was the following letter.

"Good-bye all, I am tired of life. Send my trunks to my brother in San Francisco by the People's Express Company of 423 Tenth street, for then I know he will get them quickly and safely.

FRED."

His wishes were carried out this afternoon.

THURSDAY..... MARCH 26, 1891

ENGLAND is to get a big slice of Venezuela for British Guiana, a country chiefly remarkable because with a population of about 200,000 it produces more than one barrel of rum for every inhabitant. They want more land to make more rum.

THE movement in favor of the abolition of corporal punishment in the schools does not appear to find much favor in Merced, where a teacher chastised an unruly boy recently. His parents took the case before the Trustees and insisted that the teacher should be dismissed. The Trustees, however, said nay, and complimented the teacher for the vigorous use of the rod.

THE people who are quickest to abuse juries for not doing their duty are themselves the least willing to serve, and this fact draws from the Philadelphia *Record* the remark that "probably the solid citizens of New Orleans who turned out to kill the murderous Sicilians penned up in the jail could hardly have been dragged into the jury box to try them for their crime. But they expect juries to find proper verdicts."

IT has become part of the history of the State that Adolph Sutro the Magnificent was unanimously, although not simultaneously, kissed by the Pacific Woman's Press Association. In the face of so much linked sweetness long drawn out Mr. Sutro might have been pardoned had he exclaimed, in the historic words of Cocles:

> To every man upon this earth
> Death cometh soon or late:
> And how can man die better
> Than facing fearful odds
> For the ashes of his fathers
> And the temples of his gods?

THERE have been a good many blunders about the management of the World's Fair, but perhaps the queerest was the action of the Commissioners in sending to Tennyson for the song which is to celebrate this great national affair. Have we no poets of our own, forsooth? The Sweet Singer of Michigan, the Sacramento Shakespeare, the Tarrytown poetess and the inspired Dithyrambler of Snohomish — has the whole musical band melted away? Here is a promising subject germane to the purposes of the waste paper basket inquiry.

AT the Palmer ratification meeting in Illinois yesterday Editor Jones of the Missouri *Republic* had this to say:

> This election carried with it the doom of the caucus method of choosing United States Senators. It means the end of such scandals as that enacted last week in California, where the votes of legislative cattle were bought in Senatorial shambles at the regular market price of $2000 each.

That nothing of the sort happened at the election of Senator Felton is now known to everybody in California, but the reverse opinion beyond the mountains is justified by the malignant and unjustifiable outcry of certain newspapers in this State. California may thank these newspapers for its present Eastern rating.

THE International Arbitration League, a body admirable in purpose, but somewhat windy of speech, takes to itself all the credit of having persuaded England and America to submit the settlement of the Bering-sea dispute, and assumes similar credit for the agreement between England and France to settle the rights of the Newfoundland lobster. On the latter subject congratulation is at least premature and the "peace victory" does not appear quite so peaceful as it might. A leading English paper said the other day that it would relieve bushels of embarrassment if the Newfoundlanders shipped their Governor aboard the mail-boat and hauled down the union jack. If they did this they would likely find the people of the United States pause before accenting an addition to the republic burdened with hostility to France.

Pushing the Wine Interests.

Eugene Cantin of this city, who is traveling in the East as the representative of California wine interests, was interviewed the other day by the Chicago *Tribune* on the subject of the apparent falling off in the wine output of this State as shown by the census reports. Mr. Cantin explained:

> Nearly everybody outside the State of California imagines that the output is falling off because the production has been no more than 17,000,000 gallons annually for several years. This, however, is not the case. The aim of the wine men is to produce a superior quality of liquor, and the low grade of grape is being grafted out and a high grade grafted in. Last year in one vineyard alone twenty acres were grafted out and the cabernetsauvignon, merlot, verdot and the rennat grafted in. This year thirty more acres will be treated in a similar manner, and every year until the low grades are all weeded out. But the high grades do not yield as much fruit as the others. They are called "shy bearers," which means that they bear small grapes, but of a superior quality. Wines made from these grapes have only been on the market the last few years. It is not the object of the wine producers of California to produce quantity, but quality.

Apart from this explanation, which is true so far as it goes, there is no doubt that the wine interests of this State have not been as prosperous as they might for the past four or five years, and this has been due to a combination of dealers in San Francisco. If the result of this is to improve the quality of the wine and force the producers to find their own markets, throwing off the domination of the San Francisco ring, it will be a distinct gain in the end. In the direct line of this movement is the purpose to establish in Chicago during the coming summer a viticulture cafe similar to that now in operation in San Francisco, with the design of cultivating Chicago taste in the matter of sound, wholesome and high class wines.

The Work of the Legislature.

It is now in order to remark that the Legislature having adjourned, the country feels easier. That the remark will be plentifully made we are certain, because it is a good old custom of biennial recurrence. It will return to us two years from now in all its freshness and beauty, and will go thundering down the ages until time or California shall be no more.

Nevertheless, the Legislature which has just adjourned has given us more beneficial legislation than any similar body that has sat in this State for a long time; and if there is any bad or dangerous legislation to be charged to it we have not heard of it. First of all, it has redeemed the Republican pledge to keep the State appropriations within the 50-cent limit. It has passed a useful ballot-reform law, which will go far to secure honesty in elections. It has made an important addition to the vagrancy law, which will make it possible to check the career of those quasi criminals who make a trade out of their relations with fallen women. It has limited the power of judges to punish for contempt, to permit honest criticism in the press or elsewhere of judicial acts. The acquisition of water works by cities, the creation of high schools by counties, a liberal appropriation for the World's Fair and the payment of taxes by installments were all handled in the right way.

Two measures of the greatest importance to Oakland are the Electric Motor Franchise bills and the McCall-Dargie bill to place in the Board of Works the complete control of the executive department of the municipal work.

There are a number of other important laws to be placed to the credit of the body, but these will suffice as samples.

It must be a tolerably good Legislature when the Democratic press, representing the minority, admits that it is unable to find a single bad law in the record of the session, except as it is pleased to call the state apportionment bad. From a party which has reduced gerrymandering to a science and never fails to put it in practise where it has the chance, the single objection to the work of the Republican party will be considered in connection with the source.

MEN AND WOMEN.

G. L. Curtiss of East Oakland has returned from his cattle ranch in Nevada.

Clark A. Hough, who has been seriously afflicted with the grip, is now on the road to recovery.

A. P. Miller of St. Paul and C. H. Du Bois of Minneapolis, newspaper men, are spending a few days in this city.

C. D. Thompson of Spokane, who has been on a jaunt through this State, is spending a few days in Oakland en route to his home.

Mrs. Nellie Scott and family of Oakland have gone for a week's visit to Mrs. and the Misses Lizzie and Mary Canham of San Francisco.

A promenade conversazione will be the feature in the social given at the Pilgrim Congregational Church this evening. Refreshments will be served.

Mrs. M. A. Healy will accompany her husband, Captain Healy of the United States revenue cutter Bear, on this season's cruise in the Arctic. They will leave San Francisco on Saturday next.

Dr. and Mrs. George W. Cool, who have of late years been residents of Guatemala, arrived today by steamer, and will visit at the home of Mr. and Mrs. Schuler, 223 Telegraph avenue, Mrs. Cool's parents. They are accompanied by Miss Schuler sister of Mrs. Cool.

George M. Scott, Mayor of Salt Lake, who has been visiting ex-Senator Whitney, was yesterday the guest of Mayor Glascock, who showed him about the city. Mr. Scott's visit was with a view to inquiring into the laying of bituminous rock on the streets. Extensive improvements of that kind are contemplated in Salt Lake City.

Tomorrow evening the Rosamond Temperance Union will give a rosebud social at Cavalry Hall. A fine literary and musical programme has been prepared. The event is the celebration of the first anniversary of the organization, which was named in honor of the State president of the Woman's Christian Temperance Union, Mrs. Rosamond B. Johnston.

PERALTA STOLE THEM.

A Jury Convicts Him of Taking Socrates Huff's Oysters.

Joseph Peralta and Manuel Borges were tried in Justice Snook's court yesterday afternoon on a charge of petty larceny for stealing oysters from County Treasurer Huff's oyster beds at San Leandro. Peralta was convicted in short order, but the jury disagreed as to the guilt of Borges and finally acquitted him.

Peralta, the convicted oyster pirate, is the man who caused Mr. Huff's arrest on a charge of petty larceny for taking the former's boat, and who is charged by Mr. Huff with the offense of having falsely caused his imprisonment.

Death of Mrs. Harriet A. Tay.

Mrs. Harriet A. Tay, widow of the late George H. Tay, died yesterday morning at her residence, 1005 Leavenworth street, San Francisco. For many years Mrs. Tay lived in Oakland, where she and her family were esteemed in society. She had been ill for many months, and during her illness spent several weeks here for treatment. Several years ago her husband, George H. Tay, leading member of the George H. Tay Company of San Francisco, formerly Tay, Brooks & Backus, died here. The funeral of Mrs. Tay will take place tomorrow, Friday, at 10 A. M., at Grace Church, San Francisco. The surviving members of the family are three daughters, Mrs. Danforth, wife of the naval officer at San Francisco, and Misses Irene and Hattie Tay.

MENTAL PHENOMENA.

Instances of How the Memory Was Lost And How It Returned.

New York Telegram.

Three extraordinary instances of what doctors call "periodic amnesia" were related to me last night by a physician attached to the New York Hospital. The first was that of a young American woman, who, on waking from a protracted sleep, lost memory of all she had before learned. Her memory had been capacious and well stored with a copious stock of ideas. Unexpectedly she fell into a profound sleep, which continued several hours beyond the ordinary term. On waking she was discovered to have lost every trace of acquired knowledge. All vestiges, both of words and things, were obliterated. By new efforts she again acquired the art of spelling, reading, writing and calculating, and gradually became acquainted with persons and objects like a being for the first time brought into the world. In these exercises she made considerable proficiency.

After a few months another fit of somnolency possessed her. On rousing from it she found herself restored to the state she was in before the first paroxysm, but was wholly ignorant of every event that had befallen her afterward. The former condition of her existence she used to call the old state and the latter the new state. In the old state she possessed fine powers of penmanship. In the new she wrote a poor, awkward hand, having had neither the time nor the means to become an expert.

The second case was that of a lady in the last stages of a chronic disease. She was carried from her home to a house in the country. There her infant daughter was taken to visit her, and after a short interview carried back to town. The lady died a few days after and the daughter grew up without any recollection of her mother. Years afterward the daughter visited this same country house, not knowing that she had ever seen it before. On entering the room where her mother died she started and said: "I have a distinct impression of having been in this room before, and that a lady who was in bed and seemed very ill leaned over me, kissed me and wept."

Another authenticated case is that of a clergyman who went abroad with a party of friends to visit a castle which he had no recollection of having ever seen before. His conviction that he must have visited the castle on some former occasion made him inquire from his mother if she could throw any light on the matter. She informed him that when he was eighteen months old she had visited the castle with a party of friends.

Not Much Afraid.

Detroit Free Press.

"You must lose a good many dollars a year by that man," was remarked to a Woodward-avenue grocer, as a citizen went out after "picking" at grapes, figs, apples and other things.

"Well, I dunno."

"Is he a good customer?"

"No; a very poor one."

"Then all he eats is dead loss?"

"Not altogether. There are offsets."

"How?"

"Well, all the boys are onto him. In the last year we stole three umbrellas and two pairs of gloves from him, and you see he has gone out and left a chicken in that parcel, which we will at once proceed to cabbage. If he thinks he is getting ahead of us that's all right."

The Northern Pacific.

The business of the Northern Pacific Railway has grown so large that the business of the San Francisco agency will be divided into two departments, one devoted to passengers and the other to freight business. T. K. Stateler, the present general agent, will become general passenger agent, and E. B. Forrester, now freight agent under Mr. Stateler, will become general freight agent. C. L. Hanna will continue in his position as passenger agent, and Mr. Stateler's son is in the office.

A Fine Testimonial.

OAKLAND, March 17th, 1891.

Having suffered for a long time from a peculiar stomach trouble, originally caused from the use of tobacco, I tried many physicians, but found no permanent relief until I consulted Dr. Bluett, 1069 Broadway, Oakland, and under whose treatment I have entirely recovered. I would urge upon all sufferers from indigestion and dyspepsia to apply to him at once, and I am satisfied that you will never regret it. I consider the doctor permanently qualified to treat troubles of this nature.

DIMOND TRACT
Fruit Vale Avenue, East Oakland.

Fruit Vale avenue has for many years been deemed to be one of the most desirable locations this side of the bay, for residence property. It is sheltered from winds, has a sunny exposure and delightful climate, and is handsomely improved by a number of the most elegant homes and charming ornamental gardens. The tract now offered for sale is a portion of the home place of Mr. Hugh Dimond, and is situated upon the avenue, at the intersection of Hopkins street—the terminus of the Highland Park and also the new Fruit vale street railways. The Highland Park line is about to be re-constructed and re-equipped, and will furnish frequent access to and from this property, including early and late trips.

Lots will be sold on liberal terms if desired. Superior cement sidewalks are being laid. City water is being introduced. It is also proposed to have electric lights upon the avenue.

☞AS AN INDUCEMENT to parties erecting houses, arrangements have been made with the Railway Companies by which a FREE PASS, good for five years, will be furnished for each dwelling erected upon the Tract within a specified time. For the purpose of protecting the property and insuring a good class of purchasers, a stipulation will be required—that no house worth less than $1500 shall be erected. Purchasers will, however, not be required to build at all if they do not desire. These lots have upon them, choice, vigorous, young fruit trees, now in full bearing. THE McKEE TRACT.

The most Beautiful and most Accessible of Oakland Suburbs, near Lorin, on the Berkeley Branch Railroad.

LARGE LOTS. LARGE LOTS. The best and cheapest for speculation. The finest for homes.

This property is now being sold in large and small sized lots, on prices and terms that would induce any one to purchase; already numerous lots have been sold and several attractive dwellings contracted for. Only 30 minutes to San Francisco; 10 minutes to Oakland; every train on the Berkeley branch railroad, with half hourly trips to San Francisco, stops at Adeline station on this property.

The new electric road from Oakland to Berkeley, which is now built and through the McKee tract, will be running by April 15th, 1891, and prices will then increase.

The thriving settlements of Lorin and Golden Gate (Klinknerville) with their picturesque homes, well-laid streets, stores where everything desired can be purchased, fine public schools, churches and Postoffice facilities are adjoining the property offered for sale. New houses are being built on all sides; in fact no portion of Oakland is so rapidly advancing as this favored suburb. Over 50 new homes can be seen in course of construction between the city limits of Oakland and Lorin, and by the 1st of June the activity in this line will surprise the most sanguine. In this not evidence enough that a lot in the McKee tract will increase in value?

Three great thoroughfares run through and past this tract,—viz: Standford avenue, 120 feet wide, leading from Golden Gate City to the State University at Berkeley, and Adeline and Grove streets both 80 feet in width, running from Oakland to Berkeley. Home-seekers and investors can do no better than to purchase at an early day.

Prices from $400 up—for the best locations. Terms: special inducements to builders:

Only one-fifth cash, balance in four equal yearly payments, with interest at eight per cent per annum. Title unquestionably perfect.

Send for price list, which will be forwarded by return mail, showing lots sold and prices for remaining lots. MENTION THIS PAPER.

By applying to the undersigned, intending purchasers will be driven out to the property and full information furnished.

2-DAILY TRAINS-2
FROM

WINDSOR!

Is located in the Richest Section of Sonoma County, in the Russian River Valley District. The town is built in a picturesque valley and is surrounded by the Largest Fruit, Grain and Vineyard Ranches in the county.

WINDSOR has several General Merchandise Stores, Manufactory of Agricultural Implement sand Windmills, two large wineries, Fruit-packing and canning Establishment, Hotel, Livery Stable, Wells Fargo Express Office, Telegraph and Post Office and every convenience of a large city.

WINDSOR as a commercial center for the distribution of goods is hard to equal, backed up as it is with one of the finest Agricultural, Grazing and Fruit Growing Counties in the State its prosperity in this direction can easily be calculated by the average business man.

FIRST—It is located in the midst of an extensive and fertile farming country, thickly settled by farmers who have, heretofore, been compelled to travel miles for necessary supplies.

SECOND—A portion of this ranch has been divided up into small subdivisions, each of which will support a family. The surrounding country will aggregate nearly several thousand more all of whom must contribute to the support of this town.

THIRD—Located as it is about midway between Santa Rosa and Healdsburg with San Francisco and North Pacific R. R. passing through the entire ranch, affording transportation to the metropolis of the State, San Francisco, at less cost than any other place in the State.

FOURTH.—There is a proposition to bridge Russian River that runs on the west, one and one-half miles, off Windsor, which will still open up a large, fertile country that will contribute to the support of Windsor which will make it the most convenient point for transporting their products to markets and for obtaining supplies.

FIFTH—The town of Windsor with its magnificent climate; its productive soil; cheap, certain and rapid means of communication with the great city of San Francisco, must attract many who desire to avail themselves of a change of climate. There is no fog, no malaria nor chill winds to mar the pleasure of an evening in the open air.

SIXTH—There is no place in California that will equal Sonoma County in her never-failing crops. The so-called winters are never so cold as to retard vegetation. The most delicate plants and flowers continue to grow and flourish throughout the year.

TERMS OF SALE—One quarter cash, balance of purchase price in one, two and three years. Interest on deferred payments at the rate of seven per cent per annum, payable semi-annually, special terms will be arranged with the purchasers of the five and ten acre tracts, where they desire to improve the same.

MEDALS FOR THE SOLDIERS.

The Public Presentation to Be Made This Evening.

The Ceremonies Incident to the Award of the Medals – Drill and a Camp Fire.

Tonight at Cavalry Hall the public will have an opportunity of witnessing a military ceremony of unusual interest. The affair is none other than the formal presentation of State medals to the members of Company C, Third Regiment, (Captain Levy); Company F, Fifth Regiment, (Captain Hayes); Company A, Fifth Regiment, (Captain Smith), and the Fifth Regiment Band. A large number of general, division and brigade officers will be in attendance and at the conclusion of the presentation, a guard mount will be given followed by an exhibition drill, the full band of twenty-four pieces participating.

Colonel Fairbanks, commanding the Fifth Regiment of Infantry, will probably have command, and the troops will be massed in columns of companies in the order: C, F, A and the band.

The soldiers to be decorated will step to the front and center of their respective companies in two separate lines: first, the riflemen, and behind them the marksmen. In this order their decorations will be pinned on their uniforms by Colonel Sheldon I. Kellogg (retired), ex-Inspector-General of Rifle Practice.

At the conclusion of the ceremony the honored guardsmen will march by the right and left to their posts.

Then the service medals will be presented and one man will step out from Company A and two from Company C. These medals each represent twenty years continual service in the National Guard.

At the conclusion of this ceremony the companies will be marched off the floor and the details for guard mount will be made, eight files being taken from each company, giving two platoons of twelve files front for the ceremony. As at present arranged, First Lieutenant Martin Ryan of Company C will act as Adjutant, Lieutenant Hunt of Company F will act as old officer of the day, and Lieutenant B. Y. Morris of Company A will act as new officer of the day, while Lieutenants Poulter and Wethern of Companies A and F respectively, will act as officers of the guard.

At the conclusion of the drill which will follow the visitors will be excused and the soldiers will retire to Company A's armory, where a camp fire will be held with the accompanying fare of camp life.

The decorations to be presented are medals given by the State of California to the guardsmen for proficiency in target practice, the competition being held annually in the month of November.

The medal is a round one of bronze, which tradition says are made of old bronze cannon used in the War of the Rebellion. In the center is a bear's head in relief, around which is the inscription "National Guard of California" and "Eureka." Attached to the medal are bars of bronze, silver and gold. The first bearing the word "marksman," the silver one "rifleman" and the gold bar "sharpshooter."

The bar differs according to the soldier's record with a rifle. Each bar bears the date for which it was issued, and it is attached to the medal by rings. At each subsequent shoot after winning his medal the guardsman gets a bar to add to the string already attached in former years.

Where Flowers Look Best.

There is no place where flowers show to such advantage as in the home, writes the New York florist, Klunder, in *The Ladies' Home Journal*. The flowers and plants should be placed in their proper shading so as to produce the best effect. Never overcrowd in floral decorations. This is very important. The most popular way of decorating the home consists in placing beautiful foliage plants, in different shades of green, in corners, on small stands and etageres. Flowers are used with long stems and their own foliage, put in cases. A very neat thing is a small number of miniature vases and cut-glass bowls, placed on little tables and filled with different-colored carnations, lilies-of-the-valley, mignonette, or other seasonable flowers. Each specimen should be by itself. This produces an exceedingly pretty effect. The fireplaces should be well filled with potted plants, such as ferns and variegated foliage plants. Over pictures and doors a neat effect is obtained by draping long-trailing ferns and passion-vines in bloom. To keep flowers fresh as long as possible, be sure to cut a little off the stem each day. A hard crust forms on the end of the stem which prevents the water from ascending, and this should be cut away each day. A little charcoal in the water in which the flowers stand will sweeten them and keep them fresh longer.

Black Cats As Railroad Hoodoos.

Louisville Times.

The Madison branch of the P., C., C. & St. L. sports what is called by the railroad boys the "Black Cat" train. Some time over a month ago, the train in charge of Conductor Wheedon pulled out from Columbus, and just beyond that city the trainmen observed two black cats crossing the track ahead of the locomotive. It was jokingly remarked that this was a sign of ill luck, and sure enough the train was wrecked a few moments after. Fortunately nobody was hurt.

Since then the trainmen claim to have seen one or both black cats crossing the track ahead of the train several times, and some mishap always followed. Night before last the black cat crossed in front of the train again, and sure enough the engine broke her "saddle" a few miles below Columbus. This is the last piece of ill luck credited to the black cat. It is said that the trainmen are becoming nervous over the persistence of the ebon-hued feline, and next time they see it cross before the train will turn back for a fresh start at the risk of discharge.

Hints About Lace Gowns.

Somebody asks, "Will black lace be worn?" and one is glad to answer with an emphatic Yes, says *The Ladies' Home Journal*. It is a little early to decide just how the lace gowns will be made, but they will be lace rather than net.

French or Chantilly lace will remain in vogue, and fine Spanish will also be seen. A particularly elaborate lace has its border design outlined with velvet cord, and each flower has a velvet heart; with this a bodice of lace and velvet will be worn, and that anomaly for the summer days, a velvet bonnet, will be assumed. This, of course, is an elaborate gown, and is only suited for carriage or house wear. A simpler style shows a plain, full skirt of lace made over silk, with a pointed bodice of lace, and sleeves very high and full, of heavy silk, with frills of lace as the finish at the wrists.

Business and Temperance.

New York Sun.

One of the jolliest of down-town business men celebrated his third anniversary as a "teetotaler during business hours" yesterday. In speaking of the occasion to his friends he said that three years ago he became aware that any man who drinks intoxicating liquors of any kind in business hours is too heavily handicapped to succeed. The competition in all lines of business is so great, and clear, cool heads are in such demand, that absolute temperance is essential.

Three Stories High.

Giles H. Gray will shortly erect on Union street, between Eighth and Tenth streets, a three-story flat. To Mr. Gray is chiefly due the credit of introducing this style of buildings into Oakland.

A HOT LOCAL CAMPAIGN.

The Issue of High or Low License for Saloons in Alameda.

Three Newspapers Are Now Printed Every Evening in the Transpaludal City.

Mrs. Herman Eggers of Fresno is visiting her mother, Mrs. Sohtke, on Paru street.

Justice Byler will move into his new courtroom in the Mazzini block on Webb avenue April 1st.

Oakland Commandery of Knights Templar will attend service at Christ Episcopal Church on Easter Sunday.

Rev. Father Newell of Benicia is acting as pastor of St. Joseph's Church during the illness of Rev. Father McNabae.

The City Trustees of Alameda will meet this evening to consider the bids for supplying the city with chemical and steam fire engines.

The three daily papers of Alameda, *Encinal*, *Statesman* and *News* are published in the evening. The Alameda people are having a surfeit of local newspapers just now.

Mrs. Fallmer had her husband Rudolph arrested a few days ago on a charge of battery. The case was called for trial yesterday, but the wife failed to appear and the charge was dismissed.

POLITICS HOT.

Politics in Alameda are growing hotter each day, and are becoming the sole topic of conversation. The passage of the ordinance imposing a license of $500 on saloon-keepers has made high license an issue, and it cannot be evaded, although there are many other issues that are equally important.

The convention to nominate candidates on a high-license platform will meet tomorrow evening in Park Opera House, and its proceedings are awaited with much interest. It will endeavor to nominate prominent men for City Trustees who are known to be opposed to the saloon interest. It is quite certain that D. L. Randolph will be one. Others mentioned are Joseph Forderer and Joseph Knowland, also J. C. Lindermann and A. V. Lancaster.

Public opinion seems to be divided on the advisability of having such a high license as $500 per annum, and the second convention of citizens, which will be held probably some evening next week, will also seek to put up for Trustees prominent citizens who favor a $200 or $300 license, with restrictions and safeguards around the saloon. Both conventions will claim to be non-partisan, and the first has been designated by some as the Republican non-partisan convention and the second as the Democratic non-partisan convention.

Some of the Democrats are still sorry that a straight Democratic ticket was not put in the field before now. "It was the grandest opportunity the Democrats ever had to elect their men," remarked an ardent member of that party this morning, "but they didn't know enough to realize it. The people of Alameda don't want high license just yet, and we would have elected our men sure."

The following officers will be elected at the coming election: Three Trustees, to succeed Messrs. Volberg, Everett and Peckham; three members of the Board of Education, to succeed Messrs. Mayrisch, Langtree and Knowles; City Recorder, to succeed O. L. Rogers; City Assessor, to succeed E. Minor Smith; City Treasurer, to succeed Thomas A. Smith. The offices of City Clerk, City Engineer and Superintendent of Streets are appointive by the Board of Trustees.

He Saved His Legs.

A man named Swistler, employed as engineer in San Francisco and resident at Willow street this season, was on the platform of the 6 o'clock incoming broad-guage local train last night and as it whirled into West Oakland station he jumped. Just as he made his spring, though, a Chinaman got in his way and Swistler swerved and fell directly alongside the moving wheels. His legs almost went under, but with great presence of mind he drew them up as he fell and he escaped with no greater damage than a crushed instep. Dr. Barton is attending to his injuries.

Inventive Genius at Fault.

Louisville Courier-Journal.

The Indiana man who has invented a new kind of gas meter should bear in mind that only gas companies buy gas meters. What gas company is going to give up for something new a gas meter that has the interests of the company at heart?

IS delightful if the object of your affections is beautiful, tender and true. With the affections of the heart and stomach it is the same. What can be more enjoyable than the pleasure the lover of good coffee derives from a cup of the rich flavored, amber colored nectar? Its color is beautiful, its fragrance delightful and its flavor delicious. It enlivens his brain, strengthens his nerves and soothes him into a happy mood with all around him. Try a cup of coffee properly made from

Grand Trustee Thornley has resigned on account of sickness. Frank H. Dunne will probably be appointed to fill the vacancy.

Don't forget that Monarch Parlor, Native Daughters, will give a social dance at Elite Hall April 8th.

The advance sheets of the report of the several parlors for the fiscal year ending December 31, 1890, compiled by Henry Lunstedt, grand secretary, are at hand, from which the following statistics are taken: Members initiated 2794, admitted by card 255, reinstated 326, suspended 543, withdrawn 261, expelled 7, suspended for cause 4, resigned 18, rejected 46, died 64; total gain 812, leaving the membership at date of January 1, 1891, at 9400; average receipts per member, $13 03; average disbursements per member, $10 95; number of members relieved, 812; amount of benefits paid, $22,791 60; amount of receipts, $122,454 04; amount of disbursements, $103,041 47; amount paid to Grand Parlor, $8,425 20; cash on hand in parlor treasuries, $102,926 60. From the foregoing it will be seen that both the membership and financial standing of the Native Sons of the Golden West is of the highest, and, although young in years, it ranks with some of the older and better-known fraternal organizations of the country. It is steadily progressing, and before the end of another decade its membership will have increased over treble of what it is now.

Odd Fellows.

Monroe Lodge No. 280 of Willows, Colusa county, has written to the grand secretary of this jurisdiction notifying him that one H. St. John, claiming to be a member of the lodge, which he is not, is traveling through the State soliciting help from lodges and relief committees on the strength of being a member of the lodge and of the order. He has already succeeded in obtaining money from the relief committees at Oakland and San Luis Obispo, and is likely to turn up in another city at any moment. Lodges and committees are warned against aiding him, as he has no claim upon the fraternity.

The newest idea for distribution of lodge funds is that of paying members to serve on degree staffs. It is claimed that paid officers will insure a correspondingly increased interest, and the excellence of the work will induce desirable young men to become members, thus offsetting the outlay by increased income. A lodge with over 150 members is in a deplorable condition if enough brothers will not bestow necessary time to perfect themselves in the ritualistic work and attend to the lodge whenever candidates appear at the threshold.—*National Odd Fellow.*

The Odd Fellows of San Francisco and surrounding towns will picnic at Glen Ellen on Saturday, April 25th. Delegations will attend from all the lodges in the district, and it is expected that at least 10,000 persons will participate in the day's pleasures. One of the features of the occasion will be a drill and parade, in which six cantons of Patriarchs Militant will participate.

Ancient Foresters.

At the regular quarterly meeting of Court Advocate, No. 7378, of the Ancient Order, held on Wednesday evening last, a very pleasant and instructive programme was given for the entertainment of the members and invited guests after the business of the court was finished. The chairman, W. A. Cole made an opening address showing the benefits of this order in particular over other fraternal organizations. He was followed in a similar strain, but with more statistical information, by B. T. Conger, the apparently permanent secretary, who stated the large amount of money that had been expended for the relief of members of the order aside from the current expenses. They were followed by a piano solo by Professor Meredith; some fine musical selections by Messrs. Jacobs, Marion and Muller; a song by D. Reseigh; two recitations by C. A. Preble, in his usual inimitable manner; a song by Brother Lee; a musical melange by the orchestra; a set-to with heavy gloves by C. Jacobs and T. J. Manning and J. Marion, which was well contested and very amusing to all present; a piano solo by William Nelson and a speech by W. A. Cole, the finale being some refreshments, which were enjoyed by the guests. After more songs, stories and speeches the company separated in good spirits.

Court Advocate has been very successful during its short existence in all that goes to make a worthy helpmate in the great family of fraternal organizations, i. e., relieving distress to a large amount, not only in coin but constant attention to those in need of it.

Order of Workmen.

The death of Dr. M. W. Fish of East Oakland recalls the organization of the Grand Lodge of the Ancient Order of United Workmen on November 15, 1877, in Kohler's Hall, West Oakland, representing ten lodges and thirty delegates. The principal officers elected at that session are now residents of Alameda county. Among these were the late Dr. Fish, who was the first of the grand officers to die; Hon. W. H. Jordan, grand master workman; J. A. Calhoun, grand foreman; Truman H. Allen, grand overseer; H. G. Pratt, grand recorder; C. H. Haile, grand receiver. A two-days' session was held at that time. The total membership of the order throughout the State then was less than 300. It now numbers between 17,000 and 18,000.

Order of Elks.

The sixth annual reunion of the Benevolent Protective Order of Elks of the United States will take place at Louisville, Ky., on May 17th, 18th and 19th insts. The exercises will comprise receptions, day and night parades, a barbecue and the meeting of the Grand Lodge. Extensive preparations are being made to entertain visitors, a large number of whom are expected to be present.

Knights and Ladies of Honor.

West End Lodge entertained a large number of guests last Tuesday evening in Union-square Hall.

Oakland Lodge now has initiations every meeting night, and has nearly doubled its membership since January 1st.

A very interesting meeting of the grand officers and deputies was held in the grand secretary's office last Friday evening. J. P. Dockery, G. P., presiding. The Committee on Revision of Grand Lodge Constitution was present, and the discussion of several important amendments and additions was one of the principal features of the meeting. The committee will present its report at the coming session of the Grand Lodge. Other matters considered will be referred to in the Grand Protector's report.

Improved Red Men.

On Monday evening Pohonachee Tribe No. 10 conferred the Hunters' and Warriors' degrees upon a number of candidates. J. G. Smith, P. G. S., was present and made some interesting remarks.

On Wednesday evening Manzanita Tribe No. 4 admitted a brother by card. Visitors were present from Tribes Nos. 57 and 61, and the council was largely attended.

George H. Buck, great prophet, has just returned from a visit to the southern portion of the reservation, and he reports the order there, where he visited, in a very good condition.

Miscellaneous.

On Wednesday evening, April 1st, Court United States of America, American Order of Foresters, will give a grand masquerade ball at Germania Hall. Twelve prizes will be distributed and the event promises to be a very successful one.

At a meeting of the Clan Macdonald, No. 79, Order of Scottish Clans, last evening the charter roll was closed with seventy-six signatures.

A SOCIAL SESSION.

The Elks' Great "Millionaire," Dan Sully.

THE COMEDIAN AS IMPOSER OF FINES.

The Three Hundred Elks and Their Guests Kept the Fun Going Until the Early Hours of the Morning.

It was a band of choice spirits that assembled in Elite Hall last night to participate in a social session given by the Elks in honor of visiting Brother Dan Sully, "The Millionaire." Sawdust was on the floor, beer-kegs were stacked up in the corner, a long, low, trestled table was loaded to the guards with a bounteous cold lunch, and near the stage-box was an array of cigars and cigarettes to make the combination complete. It was a party to enjoy such a layout. Doctors, lawyers, judges, business men, capitalists, actors, vocalists, musicians, public officials and newspaper men were some of the 300 men assembled in the hall, while to make the Bohemian tinge of the affair still stronger, about midnight three or four policemen drifted in and took up commanding positions at the door. It is only by participation that one can really appreciate what an affair an Elks' social session is.

It started in last night when the hands of the clock were just at 11, by George De Golia introducing Daniel Sully as president of the evening, and there were loud salvos of applause as the visitor, fresh from his success at the theater next door, stepped upon the stage and rapped the meeting to order. He accepted the honors of office in a brief speech and immediately organized by appointing George De Golia secretary, W. S. O'Brien, collector of fines; W. J. Pierce, sergeant-at-arms, and a half dozen or so of the brethren as Beer Committee. The officials were soon ready for work, Mr. Pierce being handed a large tin policeman's star and a stuffed club, and the Beer Committee receiving as regalia white aprons and the combination of the beer kegs. Before the actual fun started though, the famous 11 o'clock toast "to our absent brothers" was drunk standing, in foaming glasses of beer.

President Sully then asked a brother in the front row for a match, and because the Elk did not have one he was fined 10 cents, and those sitting on either side of him were mulcted 25 cents each for laughing. Conversation now became general, but it was checked by the appearance on the stage of the El Modelo String Quartet, that played so well that the musicians had to go on again. Frank M. Allen, a member of Mr. Sully's company, was next called to the platform and recited "Garcon," an accomplishment that brought him so much applause that he had to respond to an encore, whereupon he gave "Bill and I."

Meantime the president was hard at work fining members in every direction, one for striking too imposing an attitude another because he was enjoying himself, five members in the back row because they were eating sandwiches, the collector because he was listening to the entertainment, the policeman because he was so tall, one man because he had his overcoat on, and another because he took his ulster off, one because his mustache was longer than his whiskers, and so on, it being scarcely safe to move or to sit still either, because the chairman, from his elevated seat, could keep good watch over every one. Of course the Beer Committee was kept busy, and then when the sandwiches went around and cigars and cigarettes were lighted "dull care" was driven far away and a happier-hearted throng could not have been found anywhere.

On the stage performers came and went, a German octette singing "The Mill," Max Laurence giving in his inimitable style his German translation of "Rock-a-bye-baby," Harry Melvin starring in a couple of well-told stories, Mr. Healy reciting, and Al Stilwell and Wm. Marck singing, all doing their parts well, too, and getting uproarious applause and records. The hit of the evening though, in both senses of the expression, was a boxing match.

The piano was pulled back, the scenery shifted and the chairman and the secretary relegated to side seats so as to make room for the pugilists, who were introduced as John L. Sullivan and Marshall P. Wilder, though they were at once recognized as Eugene Van Court of the Olympic Club and James Fox of the Acme Club, respectively. John Scanlon was appointed referee, and coming to the footlights he announced that the contest was for ten points with eight-ounce gloves, the gauntlets to be blackened, so that every blow would show, and no point allowed except it was directly on the face. The preliminary fanning, etc., of the principals, who were in ring costume, got every one interested, and there was a craning of necks.

"Time" was called and the sparring commenced. A quick pass from Fox, a feint and a short right-hand blow from Van Court was executed like a flash, and then Fox went to his corner with a smear over his left eye that made every one shout. He got even though on the next round, giving Court a pretty swing blow on the forehead, and so the contest went on until it terminated 10 to 8 in favor of Van Court.

The Elks wanted more though, and in response to the applause a two-minute round, still with blackened gloves, was announced, and the fighters went at it again. Smash, smash! went the gloves, leaving a black mark at every blow. So ere the round was half over the men looked like two negroes, much to the delight of the onlookers, who gave them a cheer when the time limit was reached.

Then came more drinking, eating and story-telling, and so the hours sped on until night faded into morning and from late it became early. Taken all round it was as enjoyable a night as the Elks have had since their organization in the city and the good fellowship in the order was once again thoroghly proved.

IN HIS DELIRIUM.

A Boy Dies While Repeating One of Longfellow's Poems.

Albert Schutt, a thirteen-year-old school boy, died at the residence of his parents at Piedmont last Tuesday night of inflamation of the bowels. During his delirium just before death a pathetic incident occurred. He had been learning a poem from Longfellow to recite at school and this he repeated from beginning to end. The boy's funeral occurred today from the residence on Booth street, between Broadway and Piedmont avenue.

THE LOWEST BIDDER.

The Oakland Contracting Company Will Pave Telegraph Avenue.

The Street Committee of the City Council held a short session before the meeting of the Council last night, so as to consider the bid of the Oakland Contracting Company for paving with bitumen Telegraph avenue.

Mr. Camron said that there was some doubt in his mind as to whether all the figures in the bid were written there at the same time, but J. T. Cochran, manager of the company, assured him that they were.

Samples of the bitumen to be used were then examined and pronounced satisfactory, so it was decided to recommend that the bid of the Oakland Contracting Company be accepted. It is $4000 or $5000 lower than the others. At the meeting of the Council last evening the contract was awarded to the Oakland Contracting Company.

FOOLISH WOMEN.

Why Will They be so Thoughtless and Careless Even About Matters Which Concern Their Beauty.

The plainest features become pretty when clothed with a fresh, velvety skin. It is in the power of every woman to have a soft, fine skin, thus adding much to her charms, if she will devote a little time and care to her toilet. It should be a duty as well as a pleasure to every woman to enchance her powers of attractiveness.

So says the highest authority in London. But nothing can be more absurd than for any lady to try and be beautiful by simply powdering the face, or applying cream or ointment. These things are necessary, it is true; but something else is more important. Good refreshing sleep. Warm circulating blood which never permits cold feet or blue noses. These things make beauty quicker than any powders or lotions can. But, my lady reader says, how can this be done? Keep the blood moving by some gentle stimulant, and for this purpose nothing is equal to pure whiskey. Not the whiskey one commonly hears of; not the questionable kind that is drunk by gross of men in grosser places, but something pure, palatable and pleasing. This is precisely what Duffy's Pure Malt Whiskey is, and what has made it so immeasureably popular. The best doctors in the land prescribe it. The finest scientists endorse it. In it all those qualities are found which make it a great friend to women. It relieves the sufferings to which they are so subjected counteracts the wearing effects which so often cause women to grow old prematurely.

Duffy's Pure Malt Whiskey will, taken with a little water, tone up the system and replace langor and weakness with brightness and vigor. It is being used by the leading ladies of the land. But be sure and secure the genuine, and take only Duffy's

THE COUNCIL AT WORK

Franchises for Railroads on Eighth-Street Bridge.

PERMISSION FOR AN OIL WAREHOUSE.

The Contract to Pave Telegraph Avenue With Bitumen—Councilman Evans' Advice.

The terms of the present City Councilmen are numbered. In four days more the present Council will be a thing of the past, and with it will go Mr. Hackett's vigorous addresses, Mr. Camron's eloquence and Mr. Evans' bitter sarcasm. It is to be hoped that the meetings that last far into the hours of the waning night will also go likewise.

Last evening the Council held its last meeting but one with the membership as at present constituted, and in consequence a final conference was held in the City Clerk's office that lasted way beyond the time set for the opening of the meeting.

Nothing was done, however, except to get the Street Committee and the Committee on Fire and Water together and straighten up the mass of public matters that still remains in the hands of those committees.

It was after 8 o'clock when Chairman Collins for the last time rapped for order for the transaction of business. He will do it once more, but it will only be for the purpose of announcing to the Council on Monday evening next that their term of service is at an end.

At the meeting last night all the members were present except Mr. McAvoy, and the Council dug right into business without the formality of reading the minutes at the last meeting.

Resolutions were passed rescinding the resolution of intention to order sidewalks on East Fourteenth street between First and Thirteenth avenues.

Rescinding the resolutions of intention to order sidewalks on Seventh street, between Market and Wood streets, and on Eighth street, between Pine and Market streets.

Resolutions were also passed granting W. Lebrecht permission to maintain a "rise" on the sidewalk in front of his premises on Sixteenth street.

Granting a liquor license to W. C. Sherwood & Co. of 874 Fifth street, and approving the bonds.

CONTRACTS FOR STREET WORK.

The Street Committee reported on a number of bids for street work, and resolutions were passed awarding contracts as follows, according to the recommendation of the committee:

Awarding the contract to pave with bitumen Telegraph avenue, from Sixteenth street to the northern boundary of the city limits, to the Oakland Contracting Company.

J. K. Carpenter was awarded the contract for sewering East Twenty-first street, from Twenty-fourth avenue westerly.

The sewering of Magnolia street, between Twenty-second and Thirty-sixth streets, was awarded to John Greany.

The contract for constructing a sidewalk on Laurel or Twenty-fifth street, from Telegraph avenue to Grove street, was awarded to Reinhart & Hamilton.

To W. D. Perine the contract for constructing sidewalks on Sycamore street, between Telegraph avenue and San Pablo avenue, was awarded.

Reinhart & Hamilton received the contract to lay cement sidewalks on Caledonia avenue, between Grove street and Telegraph avenue.

The same bidders secured the contract for building a sidewalk on Elm or Twenty-fourth street, between New Broadway and Telegraph avenue.

AN OIL WAREHOUSE.

The Fire and Water Committee reported in favor of granting permission to Whittier, Fuller & Co. to erect a brick and iron oil warehouse at the foot of Myrtle street. A resolution was read in accordance with the committee's report, and Mr. Brosnahan said the committee had favored it because the present building occupied by that firm as an oil warehouse and its location are dangerous to the surrounding industries.

Mr. Evans opposed granting the permit on the ground that the property-owners in the vicinity would oppose it, and he called attention to the fact that the residents at West Oakland had vigorously protested when an oil warehouse had been established in their midst, and he informed the chairman that the location of that West Oakland oil warehouse had defeated Mr. Collins at the last election, although he was in the East at the time the Council granted the permit to the Standard Oil Company. He expected similar trouble in the Fourth ward, and moved as a substitute that the permit be not granted.

His motion obtained no second, however, and the original resolution was passed by a vote of 6 ayes and 4 noes. Messrs. Collins, Evans, Earl and Hackett voting against the measure.

PROPOSED WIDENING OF BROADWAY.

Then a resolution of intention was read to widen Broadway between Fourteenth street and Telegraph avenue, and Mr. Camron moved indefinately to postpone, and in support of his motion he explained that the property-owners on Broadway had been taxed very heavily of late. They are at present laying new pavements and stone curbings, and the Telegraph-avenue improvement would also affect them in a measure. Mr. Camron's motion was seconded and it passed. So the property of Mr. Playter and Dr. Pardee will not be disturbed at present.

THE ELECTRIC ROAD FRANCHISES.

Then Mr. Camron called up the matter of the franchises for the electric motor railroads asked for by H. W. Meek and associates and by E. C. Sessions, E. P. Vandercook and associates. He explained the occurrence of Monday night, when the ordinance granting the Meek franchise had been passed to print, and the ordinance granting the Sessions franchise had been defeated, notwithstanding the agreement of the Councilmen to pass both to print and let the fight upon which the two applicants should have the use of the Eighth-street bridge be made upon final passage of the ordinances. He accused certain members of leaving the room before the ordinance granting the Sessions franchise came up. He denounced the act as a breach of faith.

Mr. Hackett said he supposed he was one of the dodgers referred to. He denied that all the members had agreed to support both measures, and said it was foolish to think that the Councilmen would grant two franchises over the same route. He did not want to do a foolish act just as he was about to go out of office.

Mr. Wakefield expressed himself as being in favor of reconsidering the former action.

Mr. Kirk said he supposed he was another member referred to who had dodged the vote, and said it was perfect nonsense to think of passing both franchises, and he had voted for the one he thought the best and had ignored the other one. He thought Weeks' road to Haywards far more important than the Sessions road to Fruit Vale.

On behalf of the Franchise Committee Mr. Evans explained that it had been decided to pass both franchises to print and let the new Council fight the matter out and it was unfair to defeat one. He understood that the owners of the two roads are at present making arragements whereby both companies should use the bridge.

Mr. Camron said Mr. Kirk misunderstood him. He had not accused any member of going into the ante room for the purpose of dodging a vote. What he did say was that when the vote was called up two Councilmen were in the ante-room. The speaker thought both ordinances should be passed to print so that the people could read both and they might advise their representatives in the Council which one to vote for.

W. R. Davis, attorney for Sessions road, explained that the company he represented had been trying to negotiate with the Meek people, and if the latter only met the Sessions people half way the matter would have been settled by this time. Mr. Davis explained that it was his desire that both ordinances go hand in hand so that the new Council could consider both. As it is, the Council had permitted only one ordinance to go to print, hence the other one would not get into the hands of the new members of the Council at all, hence the Council would have nothing to do but to adopt the Meek franchise.

The vote to reconsider was unanimous, and the ordinance granting the Sessions franchise was passed to print.

Then Mr. Evans withdrew the motion he had made at the last meeting to reconsider the vote on the Meek franchise, and wanted to know how it was that the ordinance granting the Meek franchise happened to be printed in the papers last night when it was not so ordered by the Council. A notice of a motion to reconsider, he said, stopped the publication, and it was not worth the paper it was printed on.

FINANCE AGAIN.

A resolution was then introduced ordering the transfer of $9073 from the bond interest fund to the general fund, and Mr. Macdonald introduced as an amendment the transfer of only $7600.

Mr. Camron announced that interest on certain bonds would become due in April, and there must be money in the fund at that time to pay it.

Mr. Evans explained what occurred at the meeting of the city officials on Tuesday to discuss finances, and said in his opinion the money which had been borrowed from the general fund to tide over the shortage in the bond interest fund should now be returned, as there is a shortage in the general fund which cannot be made up even with all the money the Council can scrape together. After further discussion the Macdonald amendment was carried, and the question came up on passage of the resolution as amended.

Mr. Hackett asked Auditor Snow if the Council could transfer the money without causing any trouble.

Mr. Snow replied that he did not think the Treasurer would make the transfer on the books, even if the Council ordered it, and he did not like to do so himself. He understood that the Council wanted to recoup the general fund, and it was perfectly right, because there were many people waiting for their money. There is one fund that money could be taken from, and although it might be dangerous counsel and a dangerous precedent, he thought a little money could be taken from the salary fund, for there was a surplus there, and if the Treasurer would make that transfer he would do the same on his books. But he did not think any money could be taken back from the bond interest fund that had been placed there during the last fiscal year from money which formed the surplus in the general fund at that time.

After more discussion, Mr. Cannon offered an amendment that "$7600 from the bond interest fund" be stricken out and "$10,000 from the salary fund" be inserted.

The amendment prevailed and the transfer of $10,000 was ordered from the salary fund to the general fund.

Mr. Evans' resolution that the date of publication of the Meek and Sessions franchises begin on March 26th in the *Morning Times*, was passed.

ADVICE TO THE NEW MEMBERS.

Then Councilman Evans made a few remarks on finances for the consideration of the new members of the City Council, and concluded by giving some very valuable hints on how to avoid future complications or unpleasantness. He said that evidence exists of the fact that between $20,000 and $30,000 has been absorbed in various ways during the past year in excess of what was provided for in the levy. For instance, the levy for the wharf improvement fund was about $23,000. The Council had allowed $11,500 of the surplus of last year, which was covered by an ordinance of authorization. That brought up the total amount allowed for the wharf to $34,500. The amount actually spent was $45,000, making $11,000 paid out through the Board of Public Works on account of the improvement of the wharf in excess of what was provided for in the tax levy. The tax levy contemplated that the last election would cost only $5000, but it is going to cost $7000—an excess of $2000. Under the representation made by the Auditor that there was a surplus of $5500 in the wharf improvement fund, efforts were made to have it restored back to the general fund, and under the belief that the surplus existed the Council consented to spend $500 by resolution and $3000 by ordinance for a sewer on First street. The surplus never existed in the wharf improvement fund. Therefore $3000 that was never contemplated in the levy had gone into a sewer. The $7600 in the bond interest fund borrowed out of the surplus and put in there makes $7600 more that was not provided for in the levy.

The Street Department, the Auditor and the Engineer have absorbed at least $10,000 more in excess of what was provided for in the levy, making a total of $33,600.

Mr. Evans continued:

From the experiences of the past fiscal year, I deduce the following:

First—That a separate account should be kept of all expenditures made under the direction and supervision of the Board of Public Works.

Second—That a separate account of all expenditures made by the Superintendent of Streets, as provided for in the tax levy, and as the subordinate of the Council, should be kept.

This is the only way to overcome the difficulty growing out of the dual jurisdiction of the Board of Public Works under the charter, and of the City Council under the general law, over the office of Superintendent of Streets. If such a system of bookkeeping had been in vogue the status of each of these two branches of the executive arm of the Government, in relation to the finances, could have been readily determined at any time, and it would have been impossible to have charged the Street Department with expenditures aggregating $90,000, for which department only $42,000 had been provided in the tax levy.

Third—The City Clerk should be required to keep an account of all special appropriations or authorizations not provided for specifically in the tax levy; that he should also keep a record of all excesses existing in appropriations, whether provided for in the levy or otherwise, and these should be returnable to the General fund whenever thus recorded.

Fourth—No transfer should be made to any fund from the general fund as a loan, except to the school fund; and in the event of any transfer being made a special record of the same should be kept.

Fifth—Each department should be required to render to the City Council a monthly statement of its expenditures and receipts—that is, a balance sheet—by means of which its status with the fund provided for it in the tax levy might be readily determined.

Sixth—The Auditor and Treasurer should be required to furnish the Council with monthly statements of the various funds and of the claims standing against them.

Seventh—Any public work contemplated by the Council at or before fixing the tax levy should be separately funded in the ordinance establishing the levy. If that had been done with the $20,000 designed for the boulevard, such a thing as the diversion and systematic absorption of the money for other purposes than that for which it had been specially funded would have been impossible. By such a process of special funding the Council can control its own fiscal policy, and no power in the city government can then disturb it.

Eighth—No ordinance appropriating money from any fund should be passed until the money is payable, for the Council loses control over the money involved as soon as such ordinance is approved. An ordinance authorizing an expenditure gives the Board of Public Works power to act, but it keeps the purse strings in the hands of the Council as a check against the Board. Such ordinances of authorization should also contain a special provision whereby the operation of the ordinance, so far as the expenditure of the money is concerned, may be suspended at the pleasure of the Council.

Ninth—To avoid the complications now growing out of existing ordinances of appropriation, it is necessary that the Council arrange with the Auditor and the Treasurer for the payment of all current accounts as presented, leaving all ordinances of appropriation in *statu quo* until the close of the fiscal year; then passing ordinances of authorization at the beginning of the next fiscal year, covering the public works provided for in the ordinances of appropriation and repealing the same. The city will thus be pursuing the same policy in its relation to public works as was outlined in the adoption of the ordinances of appropriation, and the Council will be in a position to specially fund the money raised for that purpose in the next levy and control its expenditure.

Tenth—To carry out any such friendly arrangements with the Auditor and Treasurer it will be necessary to adjust the funds, restoring to the general fund such money as may have been transferred from it this fiscal year to other funds, and which now figures in those funds as surpluses.

Then the Council adjourned until half-past seven Monday evening.
